

Brigham Young University
College of Life Sciences
Convocation

April 27, 2023

5:00 p.m.

Marriott Center

Program

University Representative	Tracy W. Flinders Vice President of Information Technology and Chief Information Officer
Welcome	Laura Bridgewater Dean
Invocation	Jeffrey Clancy
Distinguished Service Award	Linda Crandall
Student Address	Caitlin Silva
Student Address	Wendell Loh
Vocal Performance "Each Life That Touches Ours for Good" Lyrics by Karen Lynn Davidson Music by A. Laurence Lyon Arranged by Mindy Meyers	Kayla Brooks, vocalist Tiffany Ferrel, vocalist Abigail Egan, pianist
Remarks	Laura Bridgewater Dean
Presentation of Diplomas	Deans and Department Chairs
Benediction	Katelynn Hales
Prelude and Recessional Music	Don Cook

The audience will please remain seated until the recessional is complete.

Distinguished Service Award Recipient Linda Crandall

In 1966, Linda Crandall began her career as a consulting dietitian in Ventura, California. It didn't take long for her to develop a love for the senior living industry, her clients, and their residents. This was the birth of Crandall Corporate Dietitians, now one of the nation's largest consulting dietitian firms, with operations in 48 states. After spending her first three years of college at Brigham Young University, Linda graduated from Arizona State University with her bachelor's degree in food and nutrition. Only falling in love with an Arizona Sun Devil could have dragged her away from the school that she loves so much.

With a vision for providing world-class menus and the best-trained dietitians in the industry, Linda has turned her passion into an opportunity to develop and strengthen dietitians and the dietary personnel in the communities served by Crandall. Linda is sought out for her expertise in senior living dietary systems by many of the nation's largest providers. In addition, she has served as an expert witness on numerous occasions. Linda considers it an honor to interact with the incredible students and faculty at BYU and hopes this continues for many years, especially since she recently bought a home not far from campus.

Outside of work, Linda has two great passions—her religious convictions and her wonderful family. Linda's deeply held religious beliefs guide her through life, and she finds great joy in her church service. Two highlights from her church service were serving for five years as the stake Relief Society president in the first single adult stake in Arizona and then serving a mission for the Church with her husband in the England Birmingham Mission. As a mother of five, grandmother of 29, and great-grandmother of 23, she dedicates her free time to attending various activities with family.

Honored Students

The following students were chosen by their departments as exemplary student representatives. The speakers and prayers have been selected from among these students.

Connor James Alder, from Cottonwood Heights, Utah, is graduating summa cum laude in neuroscience. He is the son of John and Elinor Alder. Connor served in the Portugal Lisbon Mission. He received the Regents' Scholarship as well as BYU academic scholarships and travel grants. Connor is a member of the Phi Kappa Phi honor society and maintained a 4.0 GPA while working at Utah Valley Hospital as an orderly and anesthesia technician. He presented the research he conducted in Rwanda and Uganda on neonatal blindness in sub-Saharan Africa at multiple conferences, including the Global Ophthalmology Summit and the conference for the American Academy of Pediatric Ophthalmology and Strabismus. He also presented research on criminal justice response in sexual assault cases at the American Academy of Forensic Sciences. Connor loves playing, watching, and coaching sports. His favorites are tennis and basketball, and he is an avid Utah Jazz fan. He also loves snow skiing, waterskiing, and anything to do with the outdoors. A memorable adventure was leading a group of teenagers on a humanitarian trip to Cape Verde over the summer. After graduation, Connor plans to do research during a gap year before attending medical school.

Magdalena Faith Scribner Briggs, from Orem, Utah, is graduating cum laude and with university honors in public health with an emphasis in health science. She is the daughter of Craig and Robbyn Scribner and is the wife of Ian Briggs. Maggie served in the Philippines Cebu Mission. While at BYU, she served as the vice president and president of the BYU Public Health Association, where she worked to create a student mentorship program, helped students develop professional skills, and fostered an environment of belonging. Maggie's honors thesis focused on the barriers to communication faced by Spanish-speaking patients in clinical settings. Her time studying public health has helped her to see the world differently. Her church mission and current job in an emergency department have exposed her to health disparities and the importance of public health locally and globally. She plans to use the things she has learned from her research and education to help her become a more compassionate and socially conscious healthcare

provider in the future. Maggie enjoys spending her free time with her husband, playing volleyball, running, and watching good movies. After graduation, she will attend the physician assistant program at the University of Utah.

Jeffrey Andrew Clancy, from Spokane, Washington, graduated summa cum laude in biology with a minor in philosophy. He is the son of Joe and Lori Clancy. Jeffrey served in the Mexico Guadalajara East Mission. He is a member of the Phi Kappa Phi honor society and received the Edwin S. Hinckley Scholarship. He started studying biology because he loves the life sciences and quickly realized that he wanted to pursue doing more in the long term. He has first-authored two publications and coauthored another in scientific journals and has presented his research at many conferences. He won the A. J. Sharp Award, which is given annually by the American Bryological and Lichenological Society for the best student oral presentation. He cofounded the BYU Short Story Club and enjoys reading, playing sports, and skating. Since graduating, Jeffrey is pursuing a PhD program in genetics.

Katelynn Elyse Hales, from Spanish Fork, Utah, is graduating summa cum laude in exercise and wellness with a minor in gerontology. She is the daughter of Nathan and Gwenn Hales. Katelynn served in the California Arcadia Mission. She is a member of the Phi Kappa Phi honor society and received several academic scholarships. While at BYU, she spent a good portion of her time as a research assistant in the lifestyle medicine lab, studying intermittent fasting. Last fall she was selected to present this research as a finalist in the undergraduate research competition at the Southwest Regional Conference of the American College of Sports Medicine. She has enjoyed working as a health coach at Y Be Fit and teaching Zumba classes on campus. She also likes to spend time at an aerial acrobatics gym or with her family or watching a good movie. After graduation, Katelynn will start the exercise science master's program at BYU.

Elizabeth Heninger, from Hillsboro, Oregon, is graduating summa cum laude in microbiology with a minor in chemistry. She is the daughter of Kurt and Gail Heninger. Beth received a Heritage Scholarship and the Andy Grove Scholarship for Intel Employees' Children. While at BYU, she has been on the dean's list every semester, maintaining a 4.0 GPA. She was a TA for several microbiology and molecular biology courses. She was also a piccolo player in the BYU Cougar Marching Band for all of her four years at BYU. Beth had several leadership opportunities with the band, including squad leader and member of the uniforms committee. She also played the flute in the University Band. Her hobbies include reading fantasy fiction, baking, boating, and swimming. After graduation, Beth plans to return to Oregon to work and then apply to immunology PhD programs.

Rebekah Nicole Jones, from Great Mills, Maryland, is graduating magna cum laude in biophysics. She is the daughter of Carl and Ayrin Torgesen and is the wife of Shadrach Jones. Rebekah served in the Italy Milan Mission. She received several academic awards and scholarships—including Brigham Young Scholar and Richard E. and Nancy P. Marriott Foundation Scholar—and was an Elks National Foundation semifinalist. While at BYU, she conducted research in biomedical engineering, physical chemistry, and biophysics. She coauthored a biomedical engineering publication and presented research at the BYU Student Research Conference and the Society for Neuroscience annual meeting. She worked as a TA in several departments and met her husband while she was a physics TA. She enjoyed working as a CNA in Utah County and volunteered her time as a tutor at BYU and a piano teacher at the South Franklin Community Center. Rebekah's interests include outdoor recreation, music, health and wellness, language learning, and cooking. After graduation, she plans to hike the Appalachian Trail with her husband before applying to PA school.

Derui Wendell Loh, from Singapore, is graduating magna cum laude in food science with a minor in chemistry. He is the son of Philip Loh and So Wing Yin and is the fiancé of Vicky Cher. Wendell served in the France Lyon Mission. He received a university full-tuition scholarship and was on the dean's list in the College of Physical and Mathematical Sciences as well as in the College of Life Sciences. He is a member of the Phi Kappa Phi honor society and served as its student vice president. He also was a tutor and program director for the Y-Serve tutoring program. Wendell received a College Undergraduate Research Award for his research, which focused on the applications of 3D food printing in culinary spaces. Last year he was part of the team that won the grand prize of \$10,000 for the Idaho Milk Processors Association's new product development competition. A certified advanced scuba diver, he enjoys hiking, camping, and air rifle shooting. His other hobbies include photography, writing, playing piano, cooking, and baking. He considers himself an amateur food critic and reviews restaurants on Google. After graduation, Wendell and his fiancée will be married in the Provo City Center Temple, and he will then pursue full-time employment and a graduate degree in food science.

Lisa Caitlin Silva, from North Salt Lake, Utah, is graduating summa cum laude in genetics, genomics, and biotechnology. She is the daughter of David and Jan Parkinson and is the wife of Nathaniel Silva. She and Nathaniel have an infant daughter, Selena. Caitlin served in the Louisiana Baton Rouge Mission and taught at the Provo Missionary Training Center. While at BYU, she received the College of Life Sciences Outstanding Student Award and was selected as a finalist for the Donald C. Sloan Speech Showcase. Caitlin is a member of Phi Kappa Phi. She was in the presidency of the BYU Pre-Genetic Counseling Club and on the Life Sciences Student Council. Caitlin received two CURA grants for her research on multiple sclerosis. She is passionate about the field of genetic counseling, having interned at genetic counseling clinics at Johns Hopkins Hospital and Intermountain Medical Center. Having family members affected by cystic fibrosis, Caitlin has been involved with fundraising and advocacy efforts for the Cystic Fibrosis Foundation. She also plays the harp and volunteers as a harpist at Primary Children's Hospital. She likes to sing and participate in sports with her husband. After graduation, Caitlin will pursue a master's degree in genetic counseling.

Music Performers

Kayla Anne Brooks, from Battle Creek, Michigan, is graduating in neuroscience with a minor in sociology. She is the daughter of Sonny and Jessica Brooks and is the wife of Samuel Coleman. Kayla served in the North Dakota Bismarck Mission. While at BYU, she was on the dean's list and received scholarships from her community, BYU, the BYU University Accessibility Center, the BYU Preprofessional Advisement Center, and the College of Life Sciences. Kayla worked in a research lab studying addiction and spent a summer as a licensed pharmacy technician. She currently uses her education at a residential treatment center, guiding neurodiverse teenagers through their emotions and skills, and she plans to continue her focus on being an advocate for mental health. In her free time, she enjoys playing games with friends, going on evening walks, baking desserts, and playing with her crested gecko. She sang in the BYU Women's Chorus and Concert Choir for most of her college career and hopes to continue singing in community choirs. After graduation, Kayla will apply to medical school.

Don Cook, from Spanish Fork, Utah, was appointed to the BYU organ faculty in 1991. He appears frequently as a guest organist at the Salt Lake Tabernacle and directs the annual BYU Organ Workshop. He also serves as university carillonneur.

Abigail Egan, from Dayton, Ohio, is the daughter of Joshua and Rebecca Egan. She served in the Paraguay Asunción Mission. Abigail is a software developer in the BYU Office of Information Technology. She is a proud air force brat, having lived in twelve different places all around the world before graduating from high school in Ohio. After being hired to her current full-time job almost two years ago, she transferred from BYU to Arizona State University to finish her bachelor's degree in information technology. In her spare time, she loves to read, play the piano, cook, and hike.

Tiffany Kaye Ferrel, from Castle Pines, Colorado, is graduating in public health with an emphasis in health promotion and minors in music, gerontology, and healthcare leadership. She is the daughter of Bryan and Holley Ferrel. Tiffany served in the California Santa Rosa Mission speaking Spanish. While at BYU, she participated in the undergraduate chapter of the Healthcare Industry Association as well as the BYU Public Health Association and worked in several research labs. She received scholarships from the College of Life Sciences as well as the Healthcare Leadership Scholarship from the Marriott School of Business. She loved serving the residents and staff at an assisted-living facility during her administration internship. Singing brings her great joy, and she was honored to sing in the BYU Women's Chorus and Concert Choir. Tiffany also enjoys many types of art, including graphic design, and the stickers she designed to represent the BYU public health program will be available for purchase at the BYU Store. After graduation, Tiffany will start the master of health administration program at Texas A&M.

Scholastic Recognition

Students who have received or will receive scholastic honors (*summa cum laude*, *magna cum laude*, and *cum laude*) will have this designation on their diplomas and transcripts after final grades are posted.

University Honors

Students graduating with University Honors have completed several interdisciplinary general education courses, leadership development experiences, an interdisciplinary essay, and a thesis and have also defended their thesis in their major discipline.

DECEMBER 2022

Samantha Janae Baker

Major: Neuroscience

Thesis: An Examination of the Associations Between Relationship Education, Trust, Communication, Relationship Satisfaction, and Sexual Satisfaction

Braydon Michael Lee

Major: Neuroscience

Thesis: Deep-Brain Shape Features Differentially Relate to Social Outcomes in Pediatric Traumatic Brain Injury

Sara Courtney Linderman

Major: Neuroscience

Thesis: The Effects of Vesicular Packaging on Spontaneous ATP and Dopamine Release in the Nucleus Accumbens

Christian Jakob Metzner

Major: Neuroscience

Thesis: Analysis of Electromyographic Effects of Peripheral Sensory Stimulation on Essential Tremor in Tremor Suppression Study

APRIL 2023

Magdalena Faith Scribner Briggs

Major: Public Health

Thesis: Just "Getting By"—Understanding Resource Deficits and Barriers to Medical Interpretation from the Perspectives of Spanish-Speaking Patients and Emergency Department Nurses

Jed Robert Christensen

Major: Biophysics

Thesis: Effects of the Ketogenic Diet on Spatial Memory and Long-Term Potentiation in the CA1 Region of the Hippocampus in Young Rodents

Amy Arabel Hernandez

Major: Molecular Biology

Thesis: Comparing Multiple Sclerosis Age of Onset in African American and European Cohorts via Polygenic Risk Scores

Bronwyn Meldrum

Major: Biology

Thesis: Creating Habitat Suitability Models for Restoration of *Sesbania tomentosa* and *Chenopodium oahuense* on Molokai, Hawaii

Allison Grace Pickens

Major: Genetics, Genomics, and Biotechnology

Thesis: Identifying and Knocking Out Deep Brain Photoreceptors in the Larval Zebrafish Optic Tectum

Dallin Crawford Swanson

Major: Exercise Science

Thesis: Validity of Intrinsic Foot Muscle Size Measured by Ultrasound and MRI

JUNE 2023

Morgan Lee Chase

Major: Neuroscience

Thesis: Semantic Memory and Decision Making Regarding Misinformation for COVID-19 Vaccines

Dylan Michael Kendall

Major: Neuroscience

Thesis: The Effects of Exercise on THC Reduction of Learning and Memory

Benjamin Jerry Stubblefield

Major: Neuroscience

Thesis: Adapting the Auxin Induced Degradation (AID) System to *Danio rerio* and Using It to Study the Synaptic Ribbon Protein Bassoon

AUGUST 2023

Bridger MacLean Woods

Major: Molecular Biology

Thesis: Development of Signal Processing Tools for Status Epilepticus
