## POLICY STATEMENT

Changing a major as a senior is rare and *must be approved* by the Director of the Advisement Center responsible for the new major. The *proposal and approval process* requires an evaluation of all University Core and major requirements and a time-to-graduation analysis. **A proposal that will delay graduation more than one semester will seldom be approved.**

The Student must complete the comparative graduation plan on the reverse side of this form. It will be verified and signed by the Director of the College Advisement Center (CAC) responsible for the new major. It is also the student's responsibility to be aware of the consequences of lengthening the undergraduate experience, which may include CAC holds or discontinuance of financial aid.
